

12 December 2025

09:00-13:00

MINUTES - Agreed on 12 December 2025

Location: Web conference

Attendees:

- Working Group Members:

Gabriele Aquilina, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Carlo Nebbia, Luca Tosti, Roberto Villa (Chair), Ruud Woutersen.

- EFSA:

FEEDCO Unit: Jaume Galobart, Matteo Lorenzo Innocenti, Fabiola Pizzo, Jordi Tarrès-Call and Maria Vittoria Vettori

I. Welcome and apologies for absence

The Chair welcomed the participants. Apologies for absence were received from Francesca Marcon.

II. Adoption of agenda

The agenda was adopted without changes.

III. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence¹ and the Decision of the Executive Director on Competing Interest Management², EFSA screened the Annual Declarations of Interest filled out by the Working Group (WG) members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

IV. Agreement of the minutes of the 106th Working Group meeting held on 12 December 2025, via web conference

The minutes of the 106th Working Group meeting were agreed on 12 December 2025.

V. Scientific topic for discussion

- a. **Draft opinion on methionine (DL-methionine; hydroxy analogue of methionine; calcium salt of hydroxy analogue of methionine) for all animal species and Methionine (DL-methionine protected with copolymer vinylpyridine/styrene; DL-methionineprotected with ethylcellulose; Isopropyl ester of hydroxy analogue of methionine) for ruminants [Article 14] ([EFSA-Q-2022-00356](#))**

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

NA

VII. Next meeting

The next meeting will be held on:

16 January 2026, web conference

21 November 2025

09:00-13:00

MINUTES - Agreed on 21 November 2025

Location: Web conference

Attendees:

- Working Group Members:
Gabriele Aquilina, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Francesca Marcon, Carlo Nebbia, Roberto Villa (Chair), Ruud Woutersen.
- EFSA:
FEEDCO Unit: Alberto Navarro Villa, Jordi Ortuño, Fabiola Pizzo and Maria Vittoria Vettori

I. Welcome and apologies for absence

The Chair welcomed the participants. Apologies were received from Luca Tosti.

II. Adoption of agenda

The agenda was adopted without changes.

III. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence¹ and the Decision of the Executive Director on Competing Interest Management², EFSA screened the Annual Declarations of Interest filled out by the Working Group (WG) members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

IV. Agreement of the minutes of the 105th Working Group meeting held on 21 November 2025, via web conference Parma

The minutes of the 105th Working Group meeting were agreed on 21 November 2025.

V. Scientific topics for discussion

- a. Follow-up opinion linked to EFSA-Q-2022-00355 Phenylcapsaicin as zootechnical additive for chickens for fattening. Applicant: aXichem AB ([EFSA-Q-2025-00428](#))**

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

- b. Draft opinion on Zinc lysinate sulfate as a nutritional additive for all animal species [Article 4]. Applicant: Phytobiotics Futterzusatzstoffe GmbH ([EFSA-Q-2024-00532](#))**

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

¹ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/policy_independence.pdf

² http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

c. **Draft opinion on E 551a silicic acid, precipitated and dried and E 551b colloidal silica for all animal species [Article 10]. Applicant: *Association of Synthetic Amorphous Silica Producers (ASASP)* ([EFSA-Q-2014-00887](#))**

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

VI. Any Other Business

NA

VII. Next meeting

The next meeting will be held on:

12 December 2025 via webconference

23-24 October 2025

14:00-18:00 on 23 October

09:00-13:00 on 24 October

MINUTES - Agreed on 24 October 2025

Location: EFSA premises - Parma

Attendees:

- Working Group Members:
Gabriele Aquilina, Maria Bastos, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Alberto Mantovani, Francesca Marcon, Carlo Nebbia, Kettil Svensson, Luca Tosti, Roberto Villa (Chair), Ruud Woutersen.
- EFSA:
FEEDCO Unit: Jaume Galobart, Eleni Gkimpixi, Matteo Lorenzo Innocenti, Alberto Navarro Villa, Jordi Ortúñoz, Fabiola Pizzo and Maria Vittoria Vettori

I. Welcome and apologies for absence

The Chair welcomed the participants.

II. Adoption of agenda

The agenda was adopted without changes.

III. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence¹ and the Decision of the Executive Director on Competing Interest Management², EFSA screened the Annual Declarations of Interest filled out by the Working Group (WG) members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

IV. Agreement of the minutes of the 104th Working Group meeting held on 23-24 October 2025, in Parma

The minutes of the 104th Working Group meeting were agreed on 24 October 2025.

V. Scientific topics for discussion

- a. **Draft opinion on molybdenum compound as nutritional additive for pollinator insects [Art.4]. Applicant: SATT Paris Saclay ([EFSA-Q-2024-00007](#))**

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

- b. **Follow-up opinion linked to EFSA-Q-2022-00355 Phenylcapsaicin as zootechnical additive for chickens for fattening. Applicant: aXichem AB ([EFSA-Q-2025-00428](#))**

The WG discussed the draft scientific opinion and decided that further discussion is needed.

- c. **Draft opinion on 6-phytase produced with *Trichoderma reesei* as zootechnical additive for piglets, pigs for fattening, chickens for fattening and reared for**

¹ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/policy_independence.pdf

laying, turkeys for fattening and reared for breeding, other-and-minor growing poultry species and reared for laying/breeding and other-and-minor growing porcine [Art.4]. Applicant: ADISSEO ([EFSA-Q-2023-00899](#))

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

d. Follow-up opinion linked to EFSA-Q-2016-00078 Phyllite, natural mixture of minerals of metamorphic origin for all animal species. Applicant: Marmorkalkwerk Troesch ([EFSA-Q-2022-00424](#))

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

e. Draft opinion on Methionine Renewal - Nutritional Feed Additive - Amino Acids FEED-2022-6150- RFI with DL 16 July 2025. Applicant: Huvepharma NV ([EFSA-Q-2021-00259](#))

The WG discussed the draft scientific opinion and decided that further discussion is needed.

f. Draft opinion on coated granulated calcium iodate anhydrous (3b203) as nutritional additive for all animal species. Applicant: DOX-AL ITALIA ([EFSA-Q-2024-00450](#))

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

g. Draft opinion on Zinc lysinate sulfate as a nutritional additive for all animal species [Article 4]. Applicant: Phytobiotics Futterzusatzstoffe GmbH ([EFSA-Q-2024-00532](#))

The WG discussed the draft scientific opinion and decided that further discussion is needed.

h. Draft opinion on canthaxanthin (2a161g) as sensory additive for chickens and minor poultry species for fattening, laying poultry and poultry reared for laying, ornamental fish and ornamental birds [Article 14]. Applicant: BASF SE, DSM Nutritional Products Ltd., Europe-Asia Import Export G.m.b.H., JYB Europe BV, NHU Europe GmbH ([EFSA-Q-2015-00767](#))

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

i. Draft opinion on NICACOX® (nicarbazin) for chickens for fattening and chickens reared for laying [Article 4]. Applicant: Huvepharma NV ([EFSA-Q-2021-00259](#))

The draft scientific opinion was not discussed due to the lack of time.

j. Draft opinion on Nicarb® (nicarbazin) for chickens for fattening [Article 10]. Applicant: Phibro Animal Health S.A. ([EFSA-Q-2019-00768](#))

The draft scientific opinion was not discussed due to the lack of time.

k. Draft opinion on Avi-Carb (semduramicin 3% and nicarbazin 8%) as coccidiostat for chickens for fattening [Art.4]. Applicant: Phibro Animal Health S.A. ([EFSA-Q-2024-00004](#))

The draft scientific opinion was not discussed due to the lack of time.

VII. Next meeting

The next meeting will be held on 21 November 2025 via web conference.

01 October 2025

09:00-13:00

MINUTES - Agreed on 01 October 2025

Location: EFSA - Webconference

Attendees:

- Working Group Members:

Gabriele Aquilina, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Francesca Marcon, Roberto Villa (Chair), Ruud Woutersen.

- EFSA:

FEEDCO Unit: Orsolya Holczknecht, Paola Manini, Alberto Navarro Villa, Fabiola Pizzo and Maria Vittoria Vettori

I. Welcome and apologies for absence

The Chair welcomed the participants. Apologies were received from Carlo Nebbia.

II. Adoption of agenda

The agenda was adopted without changes.

III. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence¹ and the Decision of the Executive Director on Competing Interest Management², EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

IV. Agreement of the minutes of the 103rd Working Group meeting held on 1 October 2025, via webconference

The minutes of the 103rd Working Group meeting were agreed on 1 October 2025.

V. Scientific topics for discussion

- a. Draft opinion on NICACOX® (nicarbazin) for chickens for fattening and chickens reared for laying [Article 4]. Applicant: Huvepharma NV ([EFSA-Q-2021-00259](#))**

The WG discussed the draft scientific opinion and decided that further discussion is needed.

- b. Draft opinion on Nicarb® (nicarbazin) for chickens for fattening [Article 10]. Applicant: Phibro Animal Health S.A. ([EFSA-Q-2019-00768](#))**

The WG discussed the draft scientific opinion and decided that further discussion is needed.

The next meeting will be held on 23-24 October 2025, in Parma.

05 September 2025

09:00-13:00

MINUTES - Agreed on 05 September 2025

Location: EFSA - Webconference

Attendees:

- Working Group Members:

Gabriele Aquilina, Maria Bastos, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Carlo Nebbia, Kettil Svensson, Luca Tosti, Roberto Villa (chair).

- EFSA:

FEEDCO Unit: Jaume Galobart, Alberto Navarro Villa, Elisa Pettenati, Fabiola Pizzo, Piera Valeri and Maria Vittoria Vettori

I. Welcome and apologies for absence

The Chair welcomed the participants. Apologies were received from Ruud Woutersen.

II. Adoption of agenda

The agenda was adopted without changes.

III. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence¹ and the Decision of the Executive Director on Competing Interest Management², EFSA screened the Annual Declarations of Interest filled out by the Working Group (WG) members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

IV. Agreement of the minutes of the 102nd Working Group meeting held on 5 September 2025, via webconference

The minutes of the 102nd Working Group meeting were agreed on 5 September 2025.

V. Scientific topics for discussion

- a. **Draft opinion on endo-1,4-beta-xylanase produced with *Trichoderma reesei* KCCM 8037 as zootechnical additive for all pigs and all avian species [Article 4]. Applicant: CJ Europe GmbH ([EFSA-Q-2025-00041](#))**

The WG discussed the draft scientific opinion decided to contact the applicant on issues that require clarifications.

- b. **Draft opinion on Vitamin C in the form of ascorbic acid (3a300), sodium ascorbyl phosphate (3a311) and sodium calcium ascorbyl phosphate (3a312) as nutritional additives and in the form of ascorbic acid (3a300), sodium ascorbate (1b301), calcium ascorbate (1b302) and ascorbyl palmitate (1b304) as technological**

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

V. Scientific topics for discussion

a. **Draft opinion on endo-1,4-beta-xylanase produced with *Trichoderma reesei* CBS 146249 and endo-1,3(4)-beta-glucanase produced with *Trichoderma reesei* CBS 143945 (4a15) as zootechnical additive for all avian species, pigs for fattening, suckling and weaned piglets, lactating sows and minor porcine species [Article 13]. Applicant: Genencor International B.V. ([EFSA-Q-2024-00726](#))**

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

b. **Draft opinion on coated granulated cobalt (II) carbonate (EC ID 3b304) as nutritional additive for ruminants with a functional rumen, equidae, lagomorphs, rodents, herbivore reptiles and zoo mammals [Art.13,14]. Applicant: DOX-AL ITALIA ([EFSA-Q-2022-00745](#))**

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

c. **Draft opinion on cobalt compounds (cobalt(II) acetate tetrahydrate, cobalt(II) carbonate, cobalt(II) carbonate hydroxide (2:3) monohydrate and cobalt(II) sulphate heptahydrate) as nutritional additive for ruminants with a functional rumen, equidae, lagomorphs, rodents, herbivore reptiles and zoo mammals [Art.4]. Applicant: Regal B.V ([EFSA-Q-2022-00792](#))**

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

d. **Draft opinion on 3-nitrooxypropanol as zootechnical additive for calves, lambs, kids and other ruminants for rearing (for future reproduction) and for fattening and bovines, ovines, caprines and other ruminants for fattening and reared for reproduction [Article 4]. Applicant: DSM Nutritional Products Ltd. ([EFSA-Q-2024-00671](#))**

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

The minutes of the 98th Working Group meeting were agreed on 23 April 2025.

V. Scientific topics for discussion

- a. **Draft opinion on AVATEC® 150G (lasalocid A sodium) for turkeys for fattening [Article 14]. Applicant: ZOETIS Belgium (EFSA-Q-2019-00745)**

The WG discussed the draft scientific opinion and decided that further discussion is needed.

- b. **Draft opinion on AVATEC® 150 G (lasalocid A sodium) for pheasants, guinea fowl, quails and partridges [Article 14]. Applicant: ZOETIS Belgium (EFSA-Q-2020-00597)**

The WG discussed the draft scientific opinion and decided that further discussion is needed.

- c. **Follow-up opinion linked to EFSA-Q-2021-00641 25-Hydroxycholecalciferol produced from *Pseudonocardia autotrophica* DSM 32858 for all pigs, all poultry for fattening and ornamental birds, and other poultry species Applicant: Huvepharma NV (EFSA-Q-2025-00193)**

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

- d. **Draft opinion on Citranaxanthin (Lucantin CX® forte) for laying hens [Article 10] Applicant: BASF SE (EFSA-Q-2015-00767)**

The WG discussed the draft scientific opinion and decided that further discussion is needed.

- e. **Draft opinion on Vitamin A (3a672), in form of retinyl acetate, retinyl palmitate & retinyl propionate as nutritional additive for all animal species [Article 14] Applicant: ADISSEO, NHU Europe GmbH (EFSA-Q-2024-00319)**

The WG discussed the draft scientific opinion and decided that further discussion is needed.

- f. **Draft opinion on Astaxanthin (2a161j) as sensory additive for fish, crustaceans and ornamental fish [Article 14]. Applicant: BASF, DSM Nutritional Products Ltd., JYB Europe BV (EFSA-Q-2024-00661)**

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

VII. Next meeting

The next meeting will be held on 16 May 2025, via web conference.

97th Working Group meeting on Toxicology

12-14 March 2025

09:30-11:30 on 12 March 2025

09:00-13:00 on 14 March 2025

MINUTES – Agreed on 14 March 2025

Location: Web conference

Attendees:

- Working Group Members:

Gabriele Aquilina, Maria Bastos, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Francesca Marcon, Carlo Nebbia, Kettil Svensson, Luca Tosti, Roberto Villa (chair) and Ruud Woutersen

- Hearing Experts¹:

Not applicable

- European Commission and/or Member States representatives:

Not applicable

- EFSA:

FEEDCO Unit: Joana Firmino, Yolanda García Cazorla, Orsolya Holczknecht, Matteo Lorenzo Innocenti, Fabiola Pizzo, Tuuli Tauriainen, Piera Valeri and Maria Vittoria Vettori

- Others:

Not Applicable

I. Welcome and apologies for absence

The Chair welcomed the participants. No apologies for absence were received.

II. Adoption of agenda

The agenda was adopted without changes.

III. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management,³ EFSA screened the Annual Declarations of Interest filled out by the Working Group (WG) members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

IV. Agreement of the minutes of the 97th Working Group meeting held on 12 and 14 March 2025, via web-conference

The minutes of the 97th Working Group meeting were agreed on 14 March 2025.

IV. Scientific topics for discussion

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

² http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/policy_independence.pdf

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

a. Follow-up opinion linked to EFSA-Q-2010-01524 - Chlorophyllin Copper Complex E 141 for cats and dogs ([EFSA-Q-2022-00232](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

b. Draft scientific opinion on a natural mixture of illite and illite/smectite mixed layer as technological additive for all animal species ([EFSA-Q-2022-00840](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

c. Draft scientific opinion on a preparation of endo-1,4-beta-xylanase produced with *Aspergillus niger* CBS 109.713 and endo-1,4-beta-glucanase produced with *Aspergillus niger* DSM 18404 (EC ID 4a7) as zootechnical additive for pigs for fattening ([EFSA-Q-2023-00042](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

d. Follow-up opinion linked to EFSA-Q-2016-00314 Cashew nutshell liquid for all animal species ([EFSA-Q-2023-00354](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

e. Draft scientific opinion on Citranaxanthin (Lucantin CX® forte) for laying hens ([EFSA-Q-2015-00767](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

f. Draft scientific opinion on L-tryptophan produced with *Corynebacterium glutamicum* KCCM 80346 as nutritional additive for all animal species ([EFSA-Q-2022-00882](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

g. Draft scientific opinion on a preparation of endo-1,4-beta-xylanase and alpha-galactosidase (EC ID 4a33) produced with *Trichoderma longibrachiatum* CBS 139997 and *Aspergillus tubingensis* ATCC SD 6740 as zootechnical additive for turkeys ([EFSA-Q-2023-00262](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

V. Any Other Business

None

VI. Next meeting

The next meeting will be held in April 2025; the Date and the Venue are to be agreed.

7 February 2025

09:00-13:00

MINUTES – Agreed on 7 February 2025

Location: Web conference

Attendees:

- Working Group Members:

Gabriele Aquilina, Maria Bastos, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Francesca Marcon, Carlo Nebbia, Kettil Svensson, Luca Tosti, Roberto Villa (chair) and Ruud Woutersen

- Hearing Experts¹:

Bob Cornez, Anouk Lanckriet and Pascal Richez (representing Huvepharma NV) participated to the agenda item 4.1

- European Commission and/or Member States representatives:

Not applicable

- EFSA:

FEEDCO Unit: Eleni Gkimpixi, Paola Manini, Alberto Navarro Villa, Fabiola Pizzo and Maria Vittoria Vettori

- Others:

Not Applicable

I. Welcome and apologies for absence

The Chair welcomed the participants.

No apologies for absence were received.

II. Adoption of agenda

The agenda was adopted without changes.

III. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management,³ EFSA screened the Annual Declarations of Interest filled out by the Working Group (WG) members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

IV. Agreement of the minutes of the 96th Working Group meeting held on 7 February 2025, via web-conference

The minutes of the 96th Working Group meeting were agreed on 7 February 2025 at the end of the meeting.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

V. Scientific topics for discussion

- a. Applicants' Technical hearing on Decoquinate for chickens for fattening and chickens reared for laying ([EFSA-Q-2021-00428](#)).**

Upon request from EFSA, the applicant was given the opportunity to clarify the data previously submitted. EFSA will follow up with the applicant in accordance with the [EFSA's Catalogue of support initiatives during the life cycle of applications for regulated products](#).

- b. Draft opinion on molybdenum compound as nutritional additive for pollinator insects ([EFSA-Q-2024-00007](#)).**

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

- c. Draft opinion on beta-carotene (3a160(a)) as nutritional additive for all animal species ([EFSA-Q-2024-00504](#)).**

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

Working Group

Welcome and apologies for absence

The Chair welcomed the participants.
No apologies for absence were received.

Adoption of agenda

The agenda was adopted without changes.

Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence³ and the Decision of the Executive Director on Competing Interest Management,⁴ EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

Scientific topics for discussion

4.1 Draft opinion of Xylocap® (Capsaicin CAS No. 404-86-4) as a sensory additive for all animal species ([EFSA-Q-2024-00214](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

¹ Andrew Chesson participated in the discussion of agenda item 4.8 only.

² As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/policy_independence.pdf

⁴ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

4.2 Draft opinion on vermiculite as technological additive for all animal species ([EFSA-Q-2023-00391](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.3 Draft opinion on Avi-Carb (semduramicin 3% and nicarbazin 8%) as coccidiostat for chickens for fattening ([EFSA-Q-2024-00004](#)).

The Working Group discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.4 Draft opinion on a preparation of endo-1,3(4)- beta-glucanase and endo-1,4-beta-xylanase (EC ID 4a1604i) produced with *Talaromyces versatilis* IMI 378536 as zootechnical additive for all poultry, piglets (weaned), pigs for fattening and sows ([EFSA-Q-2023-00253](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.5 Draft opinion on preparation of *Bacillus paralicheniformis* DSM33902 and *Bacillus subtilis* DSM33903 as zootechnical additive for dairy cows for milk production and other dairy ruminants (sheep, goat, buffalo etc.) ([EFSA-Q-2024-00454](#)).

The Working Group discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.6 Draft opinion on Vitamin B1 as thiamine mononitrate (3a821) and thiamine hydrochloride (3a820) as nutritional additive for all animal species [Article 14] ([EFSA-Q-2024-00407](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.7 Follow-up opinion linked to EFSA-Q-2016-00078 Phyllite, natural mixture of minerals of metamorphic origin for all animal species ([EFSA-Q-2022-00424](#)).

The Working Group discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.8 Follow-up opinion linked to EFSA-Q-2022-00742 on *Duddingtonia flagrans* strain IAH 1297 (NCIMB 30336) as zootechnical additive for all grazing animals ([EFSA-Q-2024-00410](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.2 Draft opinion on Xylocap® (Capsaicin CAS No. 404-86-4) as a sensory additive for all animal species ([EFSA-Q-2024-00214](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

4.3 Draft opinion on 25-hydroxycholecalciferol as nutritional additive for salmonids, other fish species and all other animal species ([EFSA-Q-2024-00273](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.4 Draft opinion on Avi-Carb (semduramicin 3% and nicarbazin 8%) as coccidiostat for chickens for fattening ([EFSA-Q-2024-000004](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

4.5 Draft opinion on cobalt compounds (cobalt(II) acetate tetrahydrate, cobalt(II) carbonate, cobalt(II) carbonate hydroxide (2:3) monohydrate and cobalt(II) sulphate heptahydrate) as nutritional additive for ruminants with a functional rumen, equidae, lagomorphs, rodents, herbivore reptiles and zoo mammals ([EFSA-Q-2022-00792](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.6 Draft opinion on coated granulated cobalt (II) carbonate (EC ID 3b304) as nutritional additive for ruminants with a functional rumen, equidae, lagomorphs, rodents, herbivore reptiles and zoo mammals ([EFSA-Q-2022-00745](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.7 Draft opinion on cobalt (II)acetate tetrahydrate, cobalt(II) carbonate, cobalt(II)carbonate hydroxide (2:3) monohydrate and cobalt(II) sulphate heptahydrate for camelids ([EFSA-Q-2024-00202](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.8 Draft opinion on Biotin as nutritional additives for all animal species ([EFSA-Q-2024-00320](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.9 Follow-up opinion linked to EFSA-Q-2021-00249 *Bifidobacterium longum* (CNCM I-5642) for dogs ([EFSA-Q-2024-00522](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

6 September 2024

28 June 2024

09:00-13:00

MINUTES – Agreed on 28 June 2024

Location: Web conference

Attendees:

- Working Group Members:

Gabriele Aquilina, Maria Bastos, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Francesca Marcon, Kettil Svensson, Roberto Villa (chair) and Ruud Woutersen

- Hearing Experts¹:

Not applicable

- European Commission and/or Member States representatives:

Not applicable

- EFSA:

FEEDCO Unit: Montserrat Anguita, Fabiola Pizzo, Piera Valeri, Maria Vittoria Vettori and Alberto Navarro Villa

- Others:

Not Applicable

1. Welcome and apologies for absence

The Chair welcomed the participants.
No apologies for absence were received.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management,³ EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topics for discussion

4.1 Draft opinion on Decoquinate for chickens for fattening and chickens reared for laying ([EFSA-Q-2021-00428](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

² http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/policy_independence.pdf

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

4.2 Draft opinion on chromium chelate of DL-methionine as zootechnical additive for salmon and trout ([EFSA-Q-2023-00453](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

4.3 Draft opinion on molybdenum compound as nutritional additive for pollinator insects ([EFSA-Q-2024-00007](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.4 Draft opinion on hexamethylene tetramine sodium nitrite as technological additive for all animal species ([EFSA-Q-2023-00549](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.5 Draft opinion on a preparation of endo-1,3(4)- beta-glucanase and endo-1,4- beta-xylanase (EC ID 4a1604i) produced with *Talaromyces versatilis* IMI 378536 as zootechnical additive for all poultry, piglets (weaned), pigs for fattening and sows ([EFSA-Q-2023-00253](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

None

5 Next meeting

To be confirmed.

31 May 2024

09:00-13:00

MINUTES – Agreed on 31 May 2024

Location: Web conference

Attendees:

- Working Group Members:

Gabriele Aquilina, Maria Bastos, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Francesca Marcon, Kettil Svensson, Luca Tosti, Roberto Villa (chair) and Ruud Woutersen

- Hearing Experts¹:

Not applicable

- European Commission and/or Member States representatives:

Not applicable

- EFSA:

FEEDCO Unit: Angelica Amaduzzi, Rosella Brozzi, Matteo Lorenzo Innocenti, Fabiola Pizzo, Barbara Rossi, Jordi Tarres-Call, Maria Vittoria Vettori and Alberto Navarro Villa

- Others:

Not Applicable

1. Welcome and apologies for absence

The Chair welcomed the participants.

No apologies for absence were received.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management,³ EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topics for discussion

4.1 Request for a scientific opinion under Regulation (EC) No 1831/2003 on additives for use in animal nutrition – Safety of additives containing selenium for the consumers ([EFSA-Q-2023-00896](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

4.2 Draft opinion on Decoquinate for chickens for fattening and chickens reared for laying ([EFSA-Q-2021-00428](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

4.3 Draft opinion on L-lysine (EC ID 3c320) produced with *Corynebacterium glutamicum* as nutritional additive for all animal species ([EFSA-Q-2023-00482](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.4 Draft opinion on Ponceau 4R (EC ID 2b124) as sensory additive for freshwater fish ([EFSA-Q-2022-00781](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.5 Follow-up opinion linked to EFSA-Q-2021-00501 BLIS K12 (*Streptococcus salivarius* K12) for pets and other non food-producing animals ([EFSA-Q-2024-00212](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

⁴ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

4.1 Draft opinion on Perlite (E599) as anticaking agent for all terrestrial animal species ([EFSA-Q-2023-00704](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.2 Draft opinion on Clinoptilolite of volcanic origin (E567) for all terrestrial animal species ([EFSA-Q-2023-00674](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.3 Draft Opinion on Lutein-rich extract of *Tagetes erecta* for turkeys for fattening ([EFSA-Q-2023-00483](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.4 Draft Opinion on Interban® (10 % Narasin and 0.2 % Diclazuril) for poultry ([EFSA-Q-2023-00748](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.5 Draft opinion on Availa® Cr (Chromium chelate of DL-methionine) for salmon and trout ([EFSA-Q-2023-00453](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.6 Draft opinion on Botanically defined flavourings from Botanical Group 07 - Geranaiales, Myrtales, Poales for all animal species and categories: Tea tree oil ([EFSA-Q-2024-00119](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

4.7 Draft opinion on Botanically defined flavourings from Botanical Group 02 - Apiales and Austrobaileyales for all animal species and categories ([EFSA-Q-2010-01286](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.8 Follow-up opinion linked to EFSA-Q-2013-01021 Xanthan gum for all animal species ([EFSA-Q-2023-00078](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.9 Request for a scientific opinion under Regulation (EC) No 1831/2003 on additives for use in animal nutrition – Safety of additives containing selenium for the consumers ([EFSA-Q-2023-00896](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

4.1 Follow-up opinion linked to EFSA-Q-2019-00804 KemTRACE chromium (Chromium propionate) for all growing poultry species ([EFSA-Q-2023-00166](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.2 Safety of for KemTRACE Chromium (Chromium propionate) for all growing poultry species ([EFSA-Q-2022-00350](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.3 Draft Opinion on Tartrazine 2a102 for freshwater fish ([EFSA-Q-2022-000779](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.4 Draft Opinion on Lutein-rich extract of *Tagetes erecta* for turkeys for fattening ([EFSA-Q-2023-00483](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

4.5 Draft Opinion on Polyethyleneglycol of fatty acids from soya oil (E487) for calves ([EFSA-Q-2013-00070](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.6 Draft Opinion on Interban® (10 % Narasin and 0.2 % Diclazuril) for poultry ([EFSA-Q-2023-00748](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

4.7 Draft opinion on L-valine produced by fermentation with *Corynebacterium glutamicum* KCCM80365 for all animal species ([EFSA-Q-2023-00439](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.8 Draft opinion on L-lysine sulphate containing non-viable biomass of genetically modified *Corynebacterium glutamicum* for all animal species ([EFSA-Q-2023-00484](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.9 Draft opinion on L-lysine base, liquid for all animal species ([EFSA-Q-2023-00482](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.10 Request for a scientific opinion under Regulation (EC) No 1831/2003 on additives for use in animal nutrition – Safety of additives containing selenium for the consumers ([EFSA-Q-2023-00896](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

4.2 Draft opinion on L-threonine produced by fermentation with *Corynebacterium glutamicum* KCCM80367 for all animal species ([EFSA-Q-2022-00873](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.3 Draft opinion on L-tryptophan produced by fermentation with *Corynebacterium glutamicum* KCCM80346 for all animal species ([EFSA-Q-2022-00882](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.4 Draft opinion on Coxidin (monensin sodium (carrier perlite, calcium carbonate)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding ([EFSA-Q-2020-00405](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.5 Draft opinion on Coxidin (monensin sodium (carrier perlite, calcium carbonate)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding ([EFSA-Q-2021-00074](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.6 Draft opinion on Coxidin (monensin sodium) for chickens for fattening and turkeys ([EFSA-Q-2016-00643](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.7 Draft opinion on Coxidin (monensin sodium (carrier perlite, calcium carbonate)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding ([EFSA-Q-2020-00837](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.8 Follow-up opinion linked to EFSA-Q-2019-00591 NilablenTM 200G (lasalocid A sodium and nicarbazin) for chickens for fattening ([EFSA-Q-2023-00519](#)).

The Working Group discussed the draft scientific opinion and decided that further discussion is needed.

1. Welcome and apologies for absence

The Chair welcomed the participants.

No apologies for absence were received.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management,³ EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topics for discussion

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

² http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/policy_independence.pdf

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

4.1 Draft opinion on Sacox (salinomycin sodium) for rabbits for fattening ([EFSA-Q-2020-00282](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.2 Draft opinion on Coxidin (monensin sodium (carrier perlite, calcium carbonate)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding ([EFSA-Q-2020-00405](#)).

The Working Group discussed the draft scientific opinion and decided that further discussion is needed.

4.3 Draft opinion on Coxidin (monensin sodium (carrier perlite, calcium carbonate)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding ([EFSA-Q-2021-00074](#)).

The Working Group discussed the draft scientific opinion and decided that further discussion is needed.

4.4 Draft opinion on Coxidin (monensin sodium) for chickens for fattening and turkeys ([EFSA-Q-2016-00643](#)).

The Working Group discussed the draft scientific opinion and decided that further discussion is needed.

4.5 Draft opinion on Coxidin (monensin sodium (carrier perlite, calcium carbonate)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding ([EFSA-Q-2020-00837](#)).

The Working Group discussed the draft scientific opinion and decided that further discussion is needed.

4.6 Follow-up opinion linked to EFSA-Q-2019-00591 Nilabblend™ 200G (lasalocid A sodium and nicarbazin) for chickens for fattening ([EFSA-Q-2023-00519](#)).

The Working Group discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.7 Follow-up opinion linked to EFSA-Q-2019-00804 KemTRACE chromium (Chromium propionate) for all growing poultry species ([EFSA-Q-2023-00166](#)).

The Working Group discussed the draft scientific opinion and decided that further discussion is needed.

4.8 Draft opinion on KemTRACE Chromium (Chromium propionate) for all growing poultry species ([EFSA-Q-2020-00350](#)).

The Working Group discussed the draft scientific opinion and decided that further discussion is needed.

4.9 Draft opinion on Botanically defined flavourings from Botanical Group 02 - Apiales and Austrobaileyales for all animal species and categories – Celery seeds oil ([EFSA-Q-2010-01286](#)).

The Working Group discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.10 Draft opinion on ECONASE® XT (beta-1,4-xylanase 4a8, CBS 114044) for laying hens, minor poultry and pigs for fattening ([EFSA-Q-2022-00027](#)).

The Working Group discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.11 Draft opinion on Natugrain® TS, Natugrain® TS L (endo-1,4-beta-xylanase (EC 3.2.1.8.) produced by the genetically modified *Aspergillus niger* CBS 109.713 and endo-1,4-beta-glucanase (EC 3.2.1.4.) ([EFSA-Q-2023-00042](#)).

The Working Group discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

4.1 Draft opinion on Sacox (salinomycin sodium) for rabbits for fattening ([EFSA-Q-2020-00282](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

4.2 Draft opinion on Coxidin (monensin sodium (carrier perlite, calcium carbonate)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding ([EFSA-Q-2020-00405](#)).

The draft scientific opinion was not discussed due to the lack of time.

4.3 Draft opinion on Coxidin (monensin sodium (carrier perlite, calcium carbonate)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding ([EFSA-Q-2021-00074](#)).

The draft scientific opinion was not discussed due to the lack of time.

4.4 Draft opinion on Coxidin (monensin sodium) for chickens for fattening and turkeys ([EFSA-Q-2016-00643](#)).

The draft scientific opinion was not discussed due to the lack of time.

4.5 Draft opinion on Coxidin (monensin sodium (carrier perlite, calcium carbonate)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding ([EFSA-Q-2020-00837](#)).

The draft scientific opinion was not discussed due to the lack of time.

4.6 Draft opinion on the update on the Guidance on studies concerning the safety of use of the additive for users/workers ([EFSA-Q-2022-00226](#)).

The Working Group discussed the comments received during the public consultation and decided to present the Guidance, modified accordingly, to the plenary meeting.

4.7 A general discussion on the toxicological assessment of microbial based additives and the suitability of the test items took place.

4.8 Draft opinion on FUMzyme® (Fumonisin esterase EC 3.1.1.87) for all animal species ([EFSA-Q-2023-00203](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.9 Follow-up opinion linked to EFSA-Q-2021-00075 Natupulse® TS/Natupulse® TS L (endo-1,4-beta-D-mannanase, EC 3.2.178) for all growing poultry species (chickens for fattening, turkeys for fattening and minor growing poultry species and other poultry for fattening (e.g. ducks, geese, pheasants, quail, guinea fowl, ostrich) and ornamental birds ([EFSA-Q-2023-00545](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.10 Follow-up opinion linked to EFSA-Q-2010-01043 Propyl gallate for all animal species ([EFSA-Q-2023-00231](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.11 Draft opinion on Cylactin® (*Enterococcus faecium* (proposed as *Enterococcus lactis*) NCIMB 10415) for cats and dogs ([EFSA-Q-2023-00203](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarifications.

1. Welcome and apologies for absence

The Chair welcomed the participants.

Apologies for absence were received from Gabriele Aquilina.

2. Adoption of agenda

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management,³ EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topics for discussion

4.1 Applicants' Technical hearing on Nicarb® (nicarbazin) for chickens for fattening ([EFSA-Q-2019-00768](#)), on Nicacox® (nicarbazin) for chickens for fattening and chickens reared for laying ([EFSA-Q-2021-00259](#)) and on Maxiban G160 (narasin and nicarbazin) for chickens for fattening ([EFSA-Q-2019-00739](#)).

Upon request from EFSA, the applicants were given the opportunity to clarify the data submitted previously to EFSA. After the hearing was finished and the hearing experts left the teleconference, the Working Group discussed the clarifications provided by the industry. EFSA will follow up by providing the applicants with a written summary of the points discussed.

4.2 Draft opinion on Quantum Blue (6-phytase) for fish ([EFSA-Q-2021-00313](#)).

The WG discussed the draft scientific opinion and finalised the assessment related to the toxicological aspects.

4.3 Draft opinion linked to EFSA-Q-2016-00868 - BioWorma® (*Duddingtonia flagrans* IAH 1297) for all grazing animals ([EFSA-Q-2022-00742](#)).

The WG discussed the draft scientific opinion and decided to contact the applicant on issues that require clarification.

4.4 Draft opinion on Cylactin®, Cernivet® (*Enterococcus faecium* NCIMB 10415) for chickens for fattening, chickens reared for laying, minor poultry species for fattening, minor poultry species reared for laying, chicken and minor poultry species reared for breeding, turkeys for fattening, turkeys reared for breeding, ornamental birds, calves for fattening, calves for rearing, kids for fattening, kids for rearing, lambs for fattening, lambs for rearing, minor or other ruminant species for rearing and fattening, sows, piglets (suckling), piglets (weaned), pigs for fattening, pigs for rearing, pigs for reproduction, minor pig species (suckling), minor pig species (weaned), minor pig species for rearing and fattening and minor pig species for reproduction ([EFSA-Q-2020-0391](#)).

The WG discussed the draft scientific opinion and decided that further discussion is needed.

72nd Working Group meeting on Toxicology

05-08 May 2023

09:00-13:00 (05.05.2023)

09:00-13:00 (08.05.2023)

MINUTES – Agreed by written procedure on 15 May 2023

Location: Web conference

Attendees:

- Working Group Members:

On 05.05.2023:

Maria Bastos, Paul Brantom, Andrew Chesson, Birgit Dusemund, Jürgen Groppe, Fernando Ramos, Kettil Svensson, Luca Tosti, Roberto Villa (chair) and Ruud Woutersen.

On 08.05.2023:

Birgit Dusemund and Maria Bastos

- Hearing Experts¹:

Alberto Mantovani²

- European Commission and/or Member States representatives:

Not applicable

- EFSA:

FEEDCO Unit: Angelica Amaduzzi, Jaume Galobart, Orsolya Holcznecht, Jordi Ortúñez, Fabiola Pizzo, Barbara Rossi and Maria Vittoria Vettori

- Others:

Not Applicable

1. Welcome and apologies for absence

The Chair welcomed the participants.

Apologies for absence were received from Francesca Marcon.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence³ and the Decision of the Executive Director on Competing Interest Management,⁴ EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topics for discussion

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

² A. Mantovani participated to the meeting 05 May 2023.

FEEDCO UNIT

SCIENTIFIC PANEL ON ADDITIVES AND PRODUCTS OR SUBSTANCES USED IN ANIMAL FEED

MINUTES OF THE 63rd MEETING OF THE WORKING GROUP ON TOXICOLOGY

Web-conference, 14th October 2022

(Agreed on 14th October 2022)

Participants

- Working Group Members:
Maria Bastos, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Henrique Louro, Francesca Marcon, Kettil Svensson, Luca Tosti, Roberto Villa (chair) and Ruud Woutersen
- Hearing Experts¹:
Not applicable
- European Commission and/or Member States representatives:
Not applicable
- EFSA:
FEEDCO Unit: Jordi Ortuño, Daniel Pagès Plaza, Elisa Pettenati, Fabiola Pizzo and Maria Vittoria Vettori
- Others:
Not Applicable

1. Welcome and apologies for absence

EFSA welcomed the participants.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

Apologies for absence were received from Gabriele Aquilina.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topic(s) for discussion

- 4.1.** The WG discussed the application on Safety of Clinacox 0.5% (diclazuril) for chickens for fattening ([EFSA-Q-2020-00201](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.2.** The WG discussed the application on Safety of Clinacox 0.5% (diclazuril) chicken for laying ([EFSA-Q-2020-00203](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.3.** The WG discussed the application on Safety of Nicarb® (nicarbazin) for chickens for fattening ([EFSA-Q-2019-00768](#)) and decided to contact the applicant on issues that require clarification.
- 4.4.** The WG discussed the application on Safety of 25- Hydroxycholecalciferol for all pigs, all poultry for fattening and ornamental birds, and other poultry species ([EFSA-Q-2021-00641](#)) and decided that further discussion is needed.
- 4.5.** The WG discussed the application on HiPhorius™ (6-phytase (EC 3.1.3.2.6) for all pigs, all avian species and all fish ([EFSA-Q-2022-00082](#)) and decided to contact the applicant on issues that require clarification.
- 4.6.** The WG discussed the application on Safety of RONOZYME® WX (xylanase) for all pigs and all avian species ([EFSA-Q-2022-00156](#)) and decided to contact the applicant on issues that require clarification.
- 4.7.** The WG discussed the application on Safety of Hostazym C (endo-1,4-beta-glucanase (E.C.3.2.1.4)) for chickens for fattening, minor poultry species for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding, minor poultry species reared for breeding, minor poultry species reared for laying, ornamental birds, piglets (weaned) ([EFSA-Q-2021-00549](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

² http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/policy_independence.pdf

³ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

4.8. The WG discussed the application on Safety of Nutrixtend Optim (beta-mannanase (EC 3.2.1.78) produced by *Aspergillus niger* (CBS 120604)) for chickens for fattening ([EFSA-Q-2021-00549](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

4.9. The WG discussed the application on Safety of Cycostat 66 G (robenidine hydrochloride) for rabbits for breeding and rabbits for fattening ([EFSA-Q-2020-00539](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

FEEDCO UNIT

SCIENTIFIC PANEL ON ADDITIVES AND PRODUCTS OR SUBSTANCES USED IN ANIMAL FEED

MINUTES OF THE 62nd MEETING OF THE WORKING GROUP ON TOXICOLOGY

Web-conference, 5th October 2022

(Agreed on 5th October 2022)

Participants

- Working Group Members:
Paul Brantom, Birgit Dusemund, Francesca Marcon and Ruud Woutersen
- Hearing Experts¹:
Alberto Mantovani
- European Commission and/or Member States representatives:
Not applicable
- EFSA:
FEEDCO Unit: Paola Manini, Daniel Pagès Plaza, Fabiola Pizzo
FIP Unit: Laura Ruggeri
- Others:
Not Applicable

1. Welcome and apologies for absence

EFSA welcomed the participants.

Apologies for absence were received from Andrew Chesson.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topic(s) for discussion

4.1. The discussion on the user safety assessment continued and the Working Group decided that further discussion is needed.

¹ By written procedure

² As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

³ The hearing experts have participated only on 16.09.2022 in the discussion of agenda item 4.7

1. Welcome and apologies for absence

EFSA welcomed the participants.

Apologies for absence were received by Marta Lopez.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topic(s) for discussion

4.1. The WG discussed the application on Safety of AVATEC® 150 G (lasalocid A sodium) for pheasants, guinea fowl, quails and partridges (pancreatin of porcine pancreas glands) for dogs ([EFSA-Q-2021-00464](#)) and decided to contact the applicant on issues that require clarification.

4.2. The WG discussed the application on Safety of and AVATEC® 150G (lasalocid A sodium) for turkeys for fattening ([EFSA-Q-2020-00597](#)) and decided to contact the applicant on issues that require clarification.

4.3. The WG discussed the application on Safety of 25- Hydroxycholecalciferol for all pigs, all poultry for fattening and ornamental birds, and other poultry species ([EFSA-Q-2021-00641](#)) and decided that further discussion is needed.

4.4. The WG discussed the application on Safety of Sodium saccharin for piglets, pigs for fattening, calves for rearing and calves for fattening ([EFSA-Q-2021-00528](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

4.5. The WG discussed the application on Safety of RONOZYME® HiPhos (6-phytase) for poultry, pigs for fattening, weaned piglets and sows ([EFSA-Q-2021-00342](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

⁴ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/policy_independence.pdf

⁵ http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/competing_interest_management_17.pdf

4.6. The WG discussed the application on Safety of *Lactobacillus plantarum* DSM 8862 and *Lactobacillus plantarum* DSM 8865 (BIO-SIL) for pigs, bovines, sheep, goats, horses ([EFSA-Q-2021-00131](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

4.7. The experts discussed the implementation of the Guidance on technical requirements for regulated food and feed product applications to establish the presence of small particles including nanoparticles and the EFSA SC Guidance on risk assessment of nanomaterials to be applied in the food and feed chain, human and animal health.

5. Any other Business

1. Welcome and apologies for absence

EFSA welcomed the participants.

No apologies for absence were received.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topic(s) for discussion

- 4.1. The WG discussed the application on Safety of Xylamax (endo-1,4-beta-xylanase (EC 3.2.1.8) produced by *Komagataella phaffii* xyl-2 (DSM 33574)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding and all minor avian species ([EFSA-Q-2021-00254](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.2. The WG discussed the application on Safety of RONOZYME® HiPhos (6-phytase) for poultry, pigs for fattening, weaned piglets and sows ([EFSA-Q-2021-00342](#)) and decided to contact the applicant on issues that require clarification.
- 4.3. The WG discussed the application on Safety of ROVABIO® ADVANCE powder & liquid (endo-1,4-beta-xylanase (EC 3.2.1.8), endo-1,3(4)-beta-glucanase (EC 3.2.1.6)) for pigs for fattening, weaned piglets ([EFSA-Q-2020-00147](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.4. The WG discussed the application on Safety of L-lysine monohydrochloride, Concentrated Liquid L-lysine, Concentrated Liquid L-lysine monohydrochloride for all animal species ([EFSA-Q-2021-00462](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.5. The WG discussed the application on Safety of Tocopheryl phosphate mixture (TPM®) for all animal species ([EFSA-Q-2017-00743](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.6. The WG discussed the application on Safety of BioCell® (*Saccharomyces cerevisiae* DBVPG 48 SF) for horses, pigs and ruminants ([EFSA-Q-2021-00343](#)) and decided to contact the applicant on issues that require clarification.
- 4.7. The WG discussed the application on Safety of Natupulse® TS/Natupulse® TS L (endo-1,4-beta-D-mannanase, EC 3.2.178) for all growing poultry species (chickens for fattening, turkeys for fattening and minor growing poultry species and other poultry for fattening (e.g. ducks, geese, pheasants, quail, guinea fowl, ostrich) and ornamental birds ([EFSA-Q-2021-00075](#)) and decided that further discussion is needed.⁴

1. Welcome and apologies for absence

EFSA welcomed the participants.

Apologies for absence were received from Georges Bories.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topic(s) for discussion

4.1. The WG discussed the application on Safety of Capsozyme SB Plus (endo-1,4-beta-xylanase and alpha-galactosidase) ([EFSA-Q-2021-00174](#)) for chickens for fattening, chickens reared for laying and minor poultry species for fattening and reared for laying and finalised the assessment related to the toxicological aspects of the draft opinion.

4.2. The WG discussed the application on Safety of rosemary extract for cats and dogs ([EFSA-Q-2020-00728](#)) and decided to contact the applicant on issues that require clarification.

4.3. The WG discussed the application on Safety of HOSTAZYM® X (endo-1,4-beta xylanase) ([EFSA-Q-2021-00153](#)) for chickens for fattening, chickens reared for laying, minor poultry species reared for laying, laying hens, turkeys for fattening, minor poultry species for fattening, minor poultry species for laying, pigs for fattening, piglets (weaned), carp, breeding hens, turkeys for breeding, turkeys reared for breeding, minor poultry species reared for breeding, minor poultry species for breeding, ornamental birds, suckling piglets and minor pig species for fattening and decided to contact the applicant on issues that require clarification.

¹ By written procedure

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting.

4. Scientific topic(s) for discussion

4.1 The WG discussed the application on Safety of Bovaer® 10 (3-nitrooxypropanol) ([EFSA-Q-2019-00592](http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/EFSA-Q-2019-00592.pdf)) for dairy cows for milk production, cows for reproduction, dairy sheep for milk production, ewes for reproduction, dairy goats for milk production, goats for reproduction, other ruminants for milk production, other ruminants for reproduction and decided that further discussion is needed.

4.2 The WG discussed the application on Safety of Sacox® (salinomycin sodium) ([EFSA-Q-2020-00093](http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/EFSA-Q-2020-00093.pdf)) for rabbits for fattening and decided that further discussion is needed.

4.3 The WG discussed the application on Safety of Maxiban (narasin and nicarbazin) ([EFSA-Q-2019-00739](http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/EFSA-Q-2019-00739.pdf)) for chickens for fattening and decided that further discussion is needed.

4.4 The WG discussed the application on Safety of Avemix® 02CS (endo-1,4-beta-xylanase, endo-1,3 (4)-beta-glucanase and polygalacturonase) ([EFSA-Q-2020-00635](http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/EFSA-Q-2020-00635.pdf)) for piglets (weaned) and decided to contact the applicant on issues that require clarification.

4.5 The WG discussed the application on Safety of AveMix® XG 10 (endo-1,4-beta-xylanase and endo-1,3(4)-beta-glucanase) ([EFSA-Q-2020-00807](http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/EFSA-Q-2020-00807.pdf)) for piglets (suckling and weaned piglets) and decided to contact the applicant on issues that require clarification.

4.6 The WG discussed the application on Safety of AveMix® 02 CS (endo-1,4-beta-xylanase, endo-1,3(4)-beta-glucanase and polygalacturonase) ([EFSA-Q-2020-00840](http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/EFSA-Q-2020-00840.pdf)) for piglets (suckling) and decided to contact the applicant on issues that require clarification.

4.7 The Working Group (WG) discussed the request to provide scientific technical assistance to the Commission on MRLs for halquinol ([EFSA-Q-2021-00238](http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/EFSA-Q-2021-00238.pdf)) and decided that further discussion is needed.

1. Welcome and apologies for absence

EFSA welcomed the participants.

Gabriele Aquilina attended the meeting on 23.04.2021.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence¹ and the Decision of the Executive Director on Competing Interest Management², EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

In accordance with EFSA's Policy on Independence³ and the Decision of the Executive Director on Competing Interest Management⁴, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting.

4. Applicant hearing experts

Jans Didier and Alienor Poher were invited to present their views to elaborate on the specific questions they were called upon to answer solely for item 5.1 - Safety of sodium nitrites for cats and dogs - of the present meeting on behalf of the applicant (Eusalt a.i.s.b.l.). They attended the meeting from 9.00 to 10.00 (CET time).

In accordance with EFSA's Independence Policy 2017 and implementing rules⁵ and the Decision of the Executive Director of the European Food Safety Authority on Competing Interest Management⁶, EFSA invited Didier Jans and Alienor Poher to submit an ADol. Their participation was limited to providing testimony, without the possibility to take on any role undertaken by members of the Panel, in accordance with the applicable legal framework.

5. Scientific topic(s) for discussion

5.1 The WG⁷ discussed the application on Safety of sodium nitrite for dogs and cats (EFSA-Q-2010-01462). Upon request from EFSA, the applicant was given the opportunity to present at a hearing the information available. After the hearing was finished, and the hearing experts left the teleconference, the WG discussed the clarifications provided by the applicant. EFSA will follow up by providing the applicant with a written summary of the points discussed and the next steps and relative timelines.

5.2 The WG discussed the application on Safety of Axta® PHY GOLD 30 L, Axta® PHY GOLD 30 T, Axta® PHY GOLD 65 G (6- phytase) ([EFSA-Q-2020-00767](#)) for all pigs, all poultry species and decided to contact the applicant on issues that require clarification.

5.3 The WG discussed the application on Safety of Capsozyme SB Plus (endo-1,4-beta-xylanase and alpha-galactosidase) ([EFSA-Q-2021-00174](#)) for chickens for fattening, chickens reared for laying and minor poultry species for fattening and reared for laying and decided to contact the applicant on issues that require clarification.

⁶ Decision of the Executive Director of the European Food Safety Authority on Competing Interest Management:

<https://www.efsa.europa.eu/en/corporate/pub/independencepolicy17>

⁷ Paul Brantom, Birgit Dusemund, Jürgen Gropp, Roberto Villa and Ruud Woutersen participated to the discussion of agenda items 5.1.

5.4 The WG discussed the application on Safety of Bovaer® 10 (3-nitrooxypropanol) ([EFSA-Q-2019-00592](#)) for dairy cows for milk production, cows for reproduction, dairy sheep for milk production, ewes for reproduction, dairy goats for milk production, goats for reproduction, other ruminants for milk production, other ruminants for reproduction and decided that further discussion is needed.

5.5 The WG discussed the application on Safety of Anpro, a preparation of diatomaceous earth and sepiolite ([EFSA-Q-2019-00301](#)) for all terrestrial species and decided to contact the applicant on issues that require clarification.

5.6 The WG discussed the application on Safety of titanium dioxide (EFSA-Q-2010-01522) for all animal species and finalised the assessment related to the toxicological aspects of the draft opinion.

5.7 The WG discussed the application on Safety of Coxidin (monensin sodium (carrier perlite, calcium carbonate)) ([EFSA-Q-2020-00405](#)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding and decided that further discussion is needed.

5.8 The WG discussed the application on Safety of Coxidin (monensin sodium (carrier perlite, calcium carbonate)) ([EFSA-Q-2020-00837](#)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding and decided that further discussion is needed.

8.9 The WG discussed the application on Safety of Coxidin (monensin sodium) ([EFSA-Q-2016-00643](#)) for chickens for fattening and turkeys and decided that further discussion is needed.

5.10 The WG discussed the application on Safety of Coxidin (monensin sodium (carrier perlite, calcium carbonate)) ([EFSA-Q-2021-00074](#)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding and decided that further discussion is needed.

5.11 The WG discussed the application on Safety of Clinacox 0.5% (contains 0.5 g diclazuril per 100 g) ([EFSA-Q-2020-00201](#)) for chickens reared for laying and decided to contact the applicant on issues that require clarification.

5.12 The WG discussed the application on Safety of Clinacox 0.5% (contains 0.5 g diclazuril per 100 g) ([EFSA-Q-2020-00203](#)) for chickens reared for laying and decided to contact the applicant on issues that require clarification.

5.13 The WG discussed the application on Safety of Riboflavin 5'-phosphate ester monosodium salt produced by *Bacillus subtilis* KCCM-10445 ([EFSA-Q-2020-00838](#)) for all animal species and finalised the assessment related to the toxicological aspects of the draft opinion.

1. Welcome and apologies for absence

EFSA welcomed the participants.

Apologies for absence were received from Ruud Woutersen.

2. Adoption of agenda

The agenda was adopted without changes.

¹ By written procedure

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting.

4. Applicant hearing experts

Sabina Diaz, Naveed Honorvar and Diane Shanahan were invited to present their views to elaborate on the specific questions they were called upon to answer solely for item 5.10 - Safety of CIBENZA® PHYTAVERSE® G10, CIBENZA® PHYTAVERSE® L10 (6-phytase) - of the present meeting on behalf of the applicant (Novus Europe S.A./N.V). They attended the meeting from 16:15 to 17:45 (CET time).

In accordance with EFSA's Independence Policy 2017 and implementing rules⁶ and the Decision of the Executive Director of the European Food Safety Authority on Competing Interest Management⁷, EFSA invited Sabina Diaz, Naveed Honorvar, Diane Shanahan to submit an ADol. Their participation was limited to providing testimony, without the possibility to take on any role undertaken by members of the Panel, in accordance with the applicable legal framework.

5. Scientific topic(s) for discussion

5.1 The Working Group (WG) discussed the application on Safety of butylated hydroxyanisole (BHA) ([EFSA-Q-2020-00809](#)) for cats and finalised the assessment related to the toxicological aspects of the draft opinion.

5.2 The WG discussed the application on Safety of L-glutamic acid and its sodium salt (monosodium glutamate monohydrate) produced using strain NITE BP-01681 for all animal species ([EFSA-Q-2020-00502](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

5.3 The WG discussed the application on Safety of Coxitin (monensin sodium) (EFSA-Q-2016-00643) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding and decided that further discussion is needed.

5.4 The WG discussed the application on Safety of Coxitin (monensin sodium (carrier perlite, calcium carbonate)) ([EFSA-Q-2020-00405](#)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding and decided that further discussion is needed.

⁶ EFSA's Independence Policy 2017 and implementing rules:

<http://www.efsa.europa.eu/sites/default/files/consultation/110707b.pdf>

⁷ Decision of the Executive Director of the European Food Safety Authority on Competing Interest Management: <https://www.efsa.europa.eu/en/corporate/pub/independencepolicy17>

■ 5.5 The WG discussed the application on Safety of Coixidin (monensin sodium (carrier perlite, wheat bran)) ([EFSA-Q-2020-00837](#)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding and decided that further discussion is needed.

5.6 The WG discussed the application on Safety of Coixidin (monensin sodium (carrier perlite, calcium carbonate)) ([EFSA-Q-2021-00074](#)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding and decided that further discussion is needed.

5.7 The following item was not discussed due to lack of time: Safety of Cycostat 66 G (Robenidine Hydrochloride) (EFSA-Q-2020-00539) for rabbits for breeding and rabbits for fattening.

5.8 The WG discussed the application on Safety of Clinacox 0.5% (contains 0.5 g diclazuril per 100 g) ([EFSA-Q-2020-00201](#)) for chickens reared for laying and decided that further discussion is needed.

5.9 The WG discussed the application on Safety of Clinacox 0.5% (contains 0.5 g diclazuril per 100 g) ([EFSA-Q-2020-00203](#)) for chickens reared for laying and decided that further discussion is needed.

5.10 The WG⁸ discussed the application on Safety of CIBENZA® PHYTAVERSE® G10, CIBENZA® PHYTAVERSE® L10 (6-phytase) for piglets (weaned), pigs for fattening, sows for reproduction, minor porcine species, chickens for fattening, chickens reared for laying, laying hens, turkeys for fattening, turkeys reared for breeding, minor avian species excluding laying birds, minor avian species for laying ([EFSA-Q-2018-00421](#)). Upon request from EFSA, the applicant was given the opportunity to present at a hearing the additional information available. Following discussion during the hearing, a number of points requiring further clarification was identified. After the hearing was finished, and the hearing experts left the teleconference, the WG discussed the clarifications provided by the applicant. EFSA will follow up by providing the applicant with a written summary of the points discussed and the next steps and relative timelines.

6. Any Other Business

None.

7. Next meeting(s)

9th April 2021

⁸ Gabriele Aquilina, Jürgen Groppe and Francesca Marcon participated to the discussion of agenda items 5.10.

FEED UNIT

SCIENTIFIC PANEL ON ADDITIVES AND PRODUCTS OR SUBSTANCES USED IN ANIMAL FEED

MINUTES OF THE 36th MEETING OF THE WORKING GROUP ON TOXICOLOGY

Web-conference, 26 February 2021

(Agreed on 26 February 2021)

Participants

Working Group Members:

Gabriele Aquilina, Maria de Lourdes Bastos, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Francesca Marcon, Luca Tosti, Roberto Villa (Chair) and Ruud Woutersen

1. Welcome and apologies for absence

EFSA welcomed the participants.

No apologies for absence were received.

Gabriele Aquilina participated to the discussion of agenda items 4.3.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting.

4. Scientific topic(s) for discussion

- 4.1. The Working Group (WG) discussed the Safety of Creamino® (Guanidinoacetic acid) ([EFSA-Q-2020-00521](#)) for all animal species and decided to contact the applicant on issues that require clarification.
- 4.2. The WG discussed the application on Safety of Vitamin B2 (riboflavin) produced by *Bacillus subtilis* KCCM-10445 ([EFSA-Q-2020-00160](#)) for all animal species and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.3. The WG discussed the Safety of CIBENZA® PHYTAVERSE® G10, CIBENZA® PHYTAVERSE® L10 (6-phytase) ([EFSA-Q-2018-00421](#)) for piglets (weaned), pigs for fattening, sows for reproduction, minor porcine species, chickens for fattening, chickens reared for laying, laying hens, turkeys for fattening, turkeys reared for breeding, minor avian species excluding laying birds, minor avian species for laying and decide to organise an Applicant's hearing.⁶
- 4.4. The WG discussed the Safety of Bovaer® 10 (3-nitrooxypropanol) ([EFSA-Q-2019-00592](#)) for dairy cows for milk production, cows for reproduction, dairy sheep for milk production, ewes for reproduction, dairy goats for milk production, goats for reproduction, other ruminants for milk production, other ruminants for reproduction and decided that further discussion is needed.

SCIENTIFIC PANEL ON ADDITIVES AND PRODUCTS OR SUBSTANCES USED IN ANIMAL FEED

MINUTES OF THE 30th MEETING OF THE WORKING GROUP ON TOXICOLOGY

Web-conference, 23 October 2020

(Agreed on 23 October 2020)

Participants

Working Group Members:

Maria de Lourdes Bastos, Georges Bories, Paul Brantom, Birgit Dusemund, Jürgen Gropp, Francesca Marcon, Fernando Ramos, Kettil Svensson, Luca Tosti, Roberto Villa (Chair), Ruud Woutersen

Hearing Experts¹:

Not applicable

European Commission and/or Member States representatives:

Not Applicable

EFSA:

Feed Unit: Angelica Amaduzzi, Lucilla Gregoretti, Matteo L. Innocenti, Gloria Lopez-Galvez, Paola Manini, Fabiola Pizzo

Others:

1. Welcome and apologies for absence

EFSA welcomed the participants.

No apologies for absence were received.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work : <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process.

Certain interests were declared orally by the members before the beginning of the meeting. For further details on the outcome of the screening of the Oral Declaration of Interest made at the beginning of the meeting, please refer to the Annex.

4. Scientific topic(s) for discussion

- 4.1. The WG discussed the Safety of Copper chelate of Ethylenediamine (CuEDA) for all animal species ([EFSA-Q-2019-00215](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.2. The WG discussed the Safety of Iron chelate of Ethylenediamine (FeEDA) for all animal species ([EFSA-Q-2019-00215](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.3. The WG discussed the Safety of Carrageenan gum for pet species ([EFSA-Q-2013-00970](#)) and decided to contact the applicant on issues that require clarification.
- 4.4. The WG discussed the Safety of Vitamin E/all-rac-alpha tocopheryl acetate for all animal species ([EFSA-Q-2020-00005](#)) and decided to contact the applicant on issues that require clarification.
- 4.5. The WG discussed the Safety of RRR alpha tocopheryl acetate for all animal species ([EFSA-Q-2020-00156](#)) and decided to contact the applicant on issues that require clarification.
- 4.6. The WG discussed the Safety of Vitamin E/all-rac-alpha tocopheryl acetate for all animal species ([EFSA-Q-2020-00148](#)) and decided to contact the applicant on issues that require clarification.
- 4.7. The WG discussed the Safety of Vitamin E/all-rac-alpha tocopheryl acetate (3a700) for all animal species ([EFSA-Q-2020-00146](#)) and decided to contact the applicant on issues that require clarification.
- 4.8. The WG discussed the Safety of Vitamin E/all-rac-alpha tocopheryl acetate for all animal species ([EFSA-Q-2020-00136](#)) and decided to contact the applicant on issues that require clarification.

6. Next meeting(s)

To be agreed.

Annex

Interests and actions resulting from the Oral Declaration of Interest done at the beginning of the meeting

With regard to this meeting, Dr Paul G. Brantom declared the following interest: he signed off a study cited by JECFA in 1999 and he was involved in the discussion with the Philippine sponsors of this work and in the subsequent politics of eventual approval of PNG carrageenan at JECFA and FDA. In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, and taking into account the specific matters discussed at the meeting in question, the interest above was deemed to represent a Conflict of Interest (Col). This results in the exclusion of the expert from any discussion, voting or other processing of item 4.3 (Safety of Carrageenan gum for pet species) by the concerned scientific group.

1. Welcome and apologies for absence

EFSA welcomed the participants.

¹ He participated on 9th October

² As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work : <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

No apologies for absence were received.

2. Adoption of agenda

The agenda was adopted after the withdrawal of the item 'Safety of Allura red for small mammals and ornamental birds ([EFSA-Q-2020-00290](#))'.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence³ and the Decision of the Executive Director on Competing Interest Management⁴, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

In accordance with EFSA's Policy on Independence⁵ and the Decision of the Executive Director on Competing Interest Management⁶, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting.

4. Scientific topic(s) for discussion

- 4.1. The Working Group (WG) discussed the Safety of NILABLEND 200G (Lasalocid A sodium - Nicarbazin) for chickens for fattening ([EFSA-Q-2019-00591](#)) and decided to contact the applicant on issues that require clarification.
- 4.2. The WG discussed the Safety of Indigo carmine for cats, dogs and ornamental fish ([EFSA-Q-2017-00502](#)) and decided that further discussion is needed.
- 4.3. The WG discussed the Safety of Nicarb® (nicarbazin) for chickens for fattening ([EFSA-Q-2019-00768](#)) and decided that further discussion is needed.
- 4.4. The WG discussed the Safety of Maxiban G160 contains 80g narasin and 80g nicarbazin per Kg for chickens for fattening ([EFSA-Q-2019-00739](#)) and decided that further discussion is needed.
- 4.5. The WG discussed the Safety of Zinc chelate of Ethylenediamine (ZnEDA) for all animal species ([EFSA-Q-2018-00689](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.6. The WG discussed the Safety of Manganese chelate of Ethylenediamine (MnEDA) for all animal species ([EFSA-Q-2018-00713](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.7. The following items were not discussed due to lack of time: Safety of Copper chelate of Ethylenediamine (CuEDA) for all animal species ([EFSA-Q-2019-00059](#)) and Safety of Iron chelate of Ethylenediamine (FeEDA) for all animal species ([EFSA-Q-2018-01016](#)).

1. Welcome and apologies for absence

EFSA welcomed the participants.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence¹ and the Decision of the Executive Director on Competing Interest Management², EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

In accordance with EFSA's Policy on Independence³ and the Decision of the Executive Director on Competing Interest Management⁴, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting.

4. Applicant hearing experts

Roselinde Goselink, Philippe Guion, Marie-Julie Hannoun, A.J.M.(Alfons) Jasman and Diana Jonker were invited to present their views to elaborate on the specific questions they were called upon to answer solely for item 5.1 – Safety of dried killed bacterial biomasses produced by genetically modified *Escherichia coli* strain FERM BP-10942 (PT73) or *Escherichia coli* strain FERM BP-10941 (PL73) of the present meeting on behalf of the applicant (Ajinomoto Animal Nutrition Europe). They attended the meeting from 09:00 to 11:00 (CET time).

In accordance with EFSA's Independence Policy 2017 and implementing rules⁵ and the Decision of the Executive Director of the European Food Safety Authority on Competing Interest Management⁶, EFSA invited Roselinde Goselink, Philippe Guion, Marie-Julie Hannoun, A.J.M.(Alfons) Jasman and Diana Jonker to submit an ADoI. Their participation was limited to providing testimony, without the possibility to take on any role undertaken by members of the Panel, in accordance with the applicable legal framework.

5. Scientific topic(s) for discussion

- 5.1. The Working Group (WG) discussed the application on Safety of dried killed bacterial biomasses produced by genetically modified *Escherichia coli* strain FERM BP-10942 (PT73) or *Escherichia coli* strain FERM BP-10941 (PL73) ([EFSA-Q-2020-00132](#)). Upon request from EFSA, the applicant was given the opportunity to clarify some outstanding issues related to the application. After the hearing was finished and the hearing experts left the teleconference, the WG discussed the clarifications provided by the applicant. EFSA will follow up by providing the applicant with a written summary of the points discussed.
- 5.2. The WG discussed the application on Safety of Manganese chelate of ethylenediamine ([EFSA-Q-2018-00713](#)) for all animal species and decided to contact the applicant on issues that require clarification.

6. Any Other Business

None.

1. Welcome and apologies for absence

EFSA welcomed the participants.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting.

4. Scientific topic(s) for discussion

- 4.1. The Working Group (WG) discussed the application on Safety of dried killed bacterial biomasses produced by genetically modified *Escherichia coli* strain FERM BP-10942 (PT73) or *Escherichia coli* strain FERM BP-10941 (PL73) ([EFSA-Q-2017-00724](#)) and decide to organise an Applicant's hearing.⁶
- 4.2. The WG discussed the application on Safety of Zearalenone hydrolase (ZENzyme®) for all terrestrial animal species ([EFSA-Q-2020-00008](#)) (application under Article 4 of Regulation (EC) No 1831/2003) and decided to contact the applicant on issues that require clarification.

5. Any Other Business

None.

1. Welcome and apologies for absence

EFSA welcomed the participants.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence and the Decision of the Executive Director on Competing Interest Management, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process.

Certain interests were declared orally by the members before the beginning of the meeting. For further details on the outcome of the screening of the Oral Declaration of Interest made at the beginning of the meeting, please refer to the Annex.

4. Scientific topic(s) for discussion

- 4.1. The Working Group discussed the application on NILABLEND 200G (Lasalocid A sodium Nicarbazin) for chickens for fattening ([EFSA-Q-2019-00591](#)) and decided that further discussion is needed.
- 4.2. The Working Group discussed the application on Safety of Caramel colours (E 150b, E 1650c and E 150d) for all animal species ([EFSA-Q-2019-00215](#)) and decided to contact the applicant on issues that require clarification.
- 4.3. The following item was not discussed: Dried killed bacterial biomasses produced by genetically modified *Escherichia coli* strain FERM BP-10942 (PT73) or *Escherichia coli* strain FERM BP-10941 (PL73) ([EFSA-Q-2017-00724](#)) (application under Article 29 of Regulation (EC) No 178/2002).
- 4.4. The Working Group discussed the application on Safety of RONOZYME® ProAct (serine protease EC 3.4.21.- produced by *Bacillus licheniformis* DSM 19670) ([EFSA-Q-2019-00156](#)) for chickens for fattening and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.5. The Working Group discussed the application on Safety of Zinc chelate of ethylenediamine ([EFSA-Q-2018-00689](#)) for all animal species and decided that further discussion is needed.
- 4.6. The following item was not discussed: Zearalenone hydrolase (ZENzyme®) for all terrestrial animal species ([EFSA-Q-2020-00008](#)) (application under Article 4 of Regulation (EC) No 1831/2003).
- 4.7. The Working Group discussed the application on Safety sorbitan monolaureate ([EFSA-Q-2019-00595](#)) for all animal species and finalised the assessment related to the toxicological aspects of the draft opinion.

5. Any Other Business

None.

6. Next meeting(s)

22nd April 2020 (user safety)

Annex

Interests and actions resulting from the Oral Declaration of Interest done at the beginning of the meeting

With regards to this meeting, Dr. Ruud Woutersen declared the following interest: his signature appears in two reports on user safety for agenda item 4.4 (RONOZYME® ProAct - EFSA-Q-2019-00156). He explained that he was not the study director and he was not involved in the execution of the work; his signature represented the approval of the management. In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, and taking into account the specific matters discussed at the meeting in question, the interest above was deemed to represent a Conflict of Interest (CoI) since experts 'are not allowed to assess, rate or review their own work'.

This resulted in the exclusion of the expert from the discussion of the two reports above.

1. Welcome and apologies for absence

EFSA welcomed the participants.

This meeting, originally scheduled as a physical meeting, was converted into a teleconference to avoid traveling to Parma in line with the measures established to reduce the risk of coronavirus infection.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting.

4. Scientific topic(s) for discussion

4.1. The Working Group discussed the application on Safety of Bovaer®10 (3-nitrooxypropanol) for dairy cows for milk production, cows for reproduction, dairy sheep for milk production, ewes for reproduction, dairy goats for milk production, goats for reproduction, other ruminants for milk production, other ruminants for reproduction ([EFSA-Q-2019-00592](#)) and decided that further discussion is needed.

4.2. The Working Group discussed the application on Safety of Caramel colours (E 150b, E 1650c and E 150d) for all animal species ([EFSA-Q-2019-00215](#)) and decided that further discussion is needed.

4.3. The Working Group discussed the application on Sunset Yellow FCF for cats, dogs, grain eating ornamental birds, ornamental fish, small rodents ([EFSA-Q-2019-00591](#)) and decided to contact the applicant on issues that require clarification.

4.4. The Working Group discussed the application on Safety of dried killed bacterial biomasses produced by genetically modified *Escherichia coli* strain FERM BP-10942 (PT73) or *Escherichia coli* strain FERM BP-10941 (PL73) ([EFSA-Q-2017-00724](#)) and decided that further discussion is needed.

5. Any Other Business

The WG composition will be updated with two new members. The relevant procedure has been started.

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting.

4. Scientific topic(s) for discussion

- 4.1. The Working Group discussed the application on Safety of Stenorol® (halofuginone hydrobromide) ([EFSA-Q-2012-00407](http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/EFSA-Q-2012-00407)) for chickens for fattening and turkeys and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.2. The Working Group discussed the application on Safety of RONOZYME® VP (CT) and RONOZYME® VP (L) (endo-1,3(4)-β-glucanase (IUB No 3.2.1.6)) ([EFSA-Q-2019-00528](http://www.efsa.europa.eu/sites/default/files/corporate_publications/files/EFSA-Q-2019-00528)) for weaned piglets and chickens for fattening and decided to inform the applicant on issues that required clarification.

5. Any Other Business

None.

1. Welcome and apologies for absence

EFSA welcomed the participants.

Apologies for absence were received from Fernando Ramos and Luca Tosti.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting.

4. Scientific topic(s) for discussion

- 4.1. The Working Group discussed the application on Safety of endo-1,4-beta-xylanase and alpha-galactosidase (Capsozyme SB Plus) for chickens for fattening, chickens reared for laying and minor poultry species for fattening and reared for laying ([EFSA-Q-2017-00837](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.2. The Working Group discussed the application on Safety of endo-1,4-beta-xylanase, alpha-amylase and protease (Axtra® XAP 104 TPT) for chickens for fattening, laying hens and all minor poultry species ([EFSA-Q-2017-00717](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.3. The Working group discussed the application on Safety of endo-1,4-beta-xylanase, endo-1,4-beta-glucanase (Natugrain® TS and Natugrain® TS L) in sows in order to have benefit in piglets species ([EFSA-Q-2017-00651](#)) and decided that further discussion is needed.

5. Any Other Business

None.

4. Scientific topic(s) for discussion

4.1. The Working Group discussed the application on Safety and efficacy of Zinc chelate of ethylenediamine as feed additive for all animal species ([EFSA-Q-2018-00689](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

4.2. The Working Group discussed the application on Safety and efficacy of Manganese chelate of ethylenediamine as feed additive for all animal species ([EFSA-Q-2018-00713](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

4.3. The Working Group discussed the application on Safety and efficacy of Biomin® DC-P (preparation of oregano oil, caraway oil, carvacrol, methyl salicylate and L-menthol) for chickens for fattening, chickens reared for laying, minor avian species other than laying species ([EFSA-Q-2018-00418](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

4.4. The Working Group discussed the application on Safety and efficacy of Gellan gum as feed additive for cats and dogs ([EFSA-Q-2018-00815](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

4.5. The Working Group discussed the application on Safety and efficacy of APSA PHYTAFEED® 20,000 GR, APSA PHYTAFEED® 20,000 L (6-phytase) for chickens for fattening, chickens reared for laying and minor poultry species ([EFSA-Q-2018-00478](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.

FEED UNIT

SCIENTIFIC PANEL ON ADDITIVES AND PRODUCTS OR SUBSTANCES USED IN ANIMAL FEED

MINUTES OF THE 2ND MEETING OF THE WORKING GROUP ON TOXICOLOGY

WEB-conference, 8 February 2019, Parma

(Agreed on 8 February 2019)¹

Participants

n Working Group Members:²

Maria de Lourdes Bastos, Birgit Dusemund, Francesca Marcon, Luca Tosti, Roberto Villa.

Apologies for absence were received from Ruud Woutersen.

Fernando Ramos participated in the agenda items 4.3 and 4.4

n Hearing Experts³:

Not Applicable

n European Commission and/or Member States representatives:

Not Applicable

n EFSA:

FEED Unit: Lucilla Gregoretti, Paola Manini, Fabiola Pizzo, Maria Vittoria Vettori

n Others:

Not Applicable

¹ Minutes should be published within 15 working days of the final day of the relevant meeting.

² Indicate first full name and then surname (John Smith) all throughout the document.

³ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

1. Welcome and apologies for absence

EFSA welcomed the participants.

2. Adoption of agenda

The agenda was adopted without changes

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

4. Scientific topic(s) for discussion

- 4.1. The Working Group discussed the application on Safety and efficacy Ronozyme® WX (CT)/Ronozyme® WX (L) (endo-1,4-beta-xylanase) for sows for reproduction ([EFSA-Q-2018-00622](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.2. The Working Group discussed the application on Safety and efficacy of CIBENZA® PHYTAVERSE® G10, CIBENZA® PHYTAVERSE® L10 (6-phytase) for piglets (weaned), pigs for fattening, sows for reproduction, minor porcine species, chickens for fattening, chickens reared for laying, laying hens, turkeys for fattening, turkeys reared for breeding, minor avian species excluding laying birds, minor avian species for laying ([EFSA-Q-2018-00421](#)) and decided to inform the applicant on issues that required clarification.
- 4.3. The working group discussed the application on Safety and efficacy of *Macleaya cordata* extract (Sangrovit®) for all animal species ([EFSA-Q-2010-01066](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.4. The Working Group discussed the application on Safety and efficacy of L-histidine monohydrochloride monohydrate using *Escherichia coli* NITE BP-02526 for all animal species ([EFSA-Q-2018-00782](#)) and decided to inform the applicant on issues that required clarification

6. Next meeting(s)

To be agreed

Scientific Panel on Additives and Products or Substances used in Animal Feed

Minutes of the 1st meeting of the Working Group on Toxicology

WEB-conference, 25 January 2019

(Agreed on 25 January 2019)

Participants

- **Working Group Members:**

Maria de Lourdes Bastos, Birgit Dusemund, Francesca Marcon, Luca Tosti, Roberto Villa, Ruud Woutersen.

Fernando Ramos has participated in agenda point 4.1 and 4.2

- **Hearing Experts:**¹

Not applicable.

- **European Commission and/or Member States representatives:**

Not applicable.

- **EFSA:**

FEED Unit: Gloria López-Gálvez, Paola Manini, Fabiola Pizzo, Jordi Tarrés-Call.

- **Others:**

Not applicable.

1. Welcome and apologies for absence

The Chair welcomed the participants.

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work:
<http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process.

Certain interests were declared orally by the members before the beginning of the meeting. For further details on the outcome of the screening of the Oral Declaration of Interest made at the beginning of the meeting, please refer to the Annex.

4. Scientific topic(s) for discussion

- 4.1. The Working Group discussed the application on Primary Smoke Condensate-Smoke Flavouring (SmokEz C-10) for cats and dogs (EFSA-Q-2013-01029) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.2. The Working Group discussed the application on Safety and efficacy of L-tryptophan produced with *Escherichia coli* CGMCC11674 for all animal species ([EFSA-Q-2016-00380](#)) and finalised the assessment related to the toxicological aspects of the draft opinion.
- 4.3. The Working Group discussed the application on Safety and efficacy of ferric citrate chelate for piglets (weaned, suckling) and minor porcine species ([EFSA-Q-2018-00758](#)) and decided to inform the applicant on issues that required clarification.
- 4.4. The Working Group discussed the application on Safety and efficacy of Zinc chelate of ethylenediamine as feed additive for all animal species ([EFSA-Q-2018-00689](#)) and decided to inform the applicant on issues that required clarification.

6. Next meeting(s)

8 February 2019 (AM)

Annex

Interests and actions resulting from the Oral Declaration of Interest done at the beginning of the meeting

With regard to this meeting, Dr. Dusemund declared the following interest: co-authoring in a review paper on dietary manganese exposure in adult population in Germany (not published yet). In accordance with EFSA's Policy on Independence⁴ and the Decision of the Executive Director on Competing Interest Management⁵, and taking into account the specific matters discussed at the meeting in question, the interest above was not deemed to represent a Conflict of Interest for the expert concerned.
