Minutes of the 18th meeting of the Working Group on
risk posed by pathogens in food of non-animal origin. Part 2
Held on 24/10/2014, Murcia, Spain, 8:00 to 19:00
(Agreed on 24/10/2014)

Participants

- **Working Group Experts:**
 - Ana Allende, Nigel Cook, Paul Cook, Jim McLauchlin (Chair), Christophe Nguyen-The (only from 10:30 to 12:30 via video conference).
- **EFSA:**
 - BIOCONTAM Unit: Teresa Felício.

1. Welcome and apologies for absence

The Chair welcomed the participants. Apologies were received from Birgit Nørrung and Mieke Uyttendaele.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of interest

In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes¹ and the Decision of the Executive Director implementing this Policy regarding Declarations of Interests², EFSA screened the Annual Declaration of interest (ADoI) and the Specific Declaration of interest (SDoI) filled in by the experts invited for the present meeting.

For further details on the outcome of the screening of the SDoI, please refer to Annex I. ODols were asked at the beginning of the meeting and no additional interest was declared.

5. Scientific topic(s) for discussion

¹ <http://www.efsa.europa.eu/en/keydocs/docs/independencepolicy.pdf>

² <http://www.efsa.europa.eu/en/keydocs/docs/independencerules.pdf>

5.1 Risk posed by pathogens in FoNAO - *Salmonella* and Norovirus in leafy greens eaten raw as salads (EFSA-Q-2012-00238)

This draft opinion was adopted by the BIOHAZ Panel on 6 March 2014 and published on 27 March 2014.

5.2 Risk posed by pathogens in FoNAO - *Salmonella* and Norovirus in berries (EFSA-Q-2013-00179)

This draft opinion was adopted by the BIOHAZ Panel on 22 May 2014 and was published on 18 June 2014.

5.3 Risk posed by pathogens in FoNAO - *Salmonella* and Norovirus in tomatoes (EFSA-Q-2013-00177)

This question was adopted by the BIOHAZ Panel on 11 September 2014 and will be published by 2 October 2014.

5.4 Risk posed by pathogens in FoNAO - *Salmonella* in melons (EFSA-Q-2013-00178)

This question was adopted by the BIOHAZ Panel on 11 September 2014 and will be published by 2 October 2014.

5.5 Risk posed by pathogens in FoNAO - *Salmonella*, *Yersinia*, *Shigella* and Norovirus in bulb and stem vegetables and carrots (EFSA-Q-2013-00176)

Following to the contributions provided since the previous meeting, the experts further discussed and improved the contents of the draft opinion. The future work ahead was discussed, and new tasks were allocated to the WG experts and EFSA's Secretariat.

7. Next meetings

No additional WG meeting is foreseen.

Annex I (depending on the interest declared and number of the Annexes adapt numbering)

Interests and actions resulting from the screening of Specific Declaration of Interests (SDoI)³

- a) **CONFLICT OF INTEREST:** In the SDoI filled for the present meeting by **DR. MIEKE UYTENDAELE** a current *ad hoc* consultancy activity for a non-food safety organisation in the specific area of irrigation water was identified. In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes and the Decision of the Executive Director implementing this Policy regarding Declarations of Interests, and taking into account the specific matters discussed at the meeting in question, the interest above was deemed to represent a conflict of Interest.

This results in the impossibility for the expert to be present when this specific topic (irrigation water) is discussed in the meeting, voted on or in anyway processed by that concerned scientific group.

³ The Annual Declarations of Interests have been screened and approved before inviting the experts to the meeting, in accordance with the Decision of the Executive Director implementing the Policy on Independence regarding Declarations of Interests.

This draft opinion was adopted by the BIOHAZ Panel on 6 March 2014 and published on 27 March 2014.

5.2 Risk posed by pathogens in FoNAO - *Salmonella* and Norovirus in tomatoes (EFSA-Q-2013-00177)

This question was not addressed during this meeting.

5.3 Risk posed by pathogens in FoNAO - *Salmonella* in melons (EFSA-Q-2013-00178)

This question was not addressed during this meeting.

5.4 Risk posed by pathogens in FoNAO - *Salmonella* and Norovirus in berries (EFSA-Q-2013-00179)

Following to the contributions provided since the previous meeting, the experts further discussed and improved the contents of the draft opinion. The future work ahead was discussed, and new tasks were allocated to the WG experts and EFSA's Secretariat.

5.5 Risk posed by pathogens in FoNAO - *Salmonella*, *Yersinia*, *Shigella* and Norovirus in bulb and stem vegetables and carrots (EFSA-Q-2013-00176)

This question was not addressed during this meeting.

7. Next meetings

The WG Experts agreed to hold the next meeting on **10 June 2014** (8:00-18:30 am, Brussels).

Annex I (depending on the interest declared and number of the Annexes adapt numbering)

Interests and actions resulting from the screening of Specific Declaration of Interests (SDoI)³

- a) **CONFLICT OF INTEREST:** In the SDoI filled for the present meeting by **DR. MIEKE UYTENDAELE** a current *ad hoc* consultancy activity for a non-food safety organisation in the specific area of irrigation water was identified. In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes and the Decision of the Executive Director implementing this Policy regarding Declarations of Interests, and taking into account the specific matters discussed at the meeting in question, the interest above was deemed to represent a conflict of Interest.

This results in the impossibility for the expert to be present when this specific topic (irrigation water) is discussed in the meeting, voted on or in anyway processed by that concerned scientific group.

³ The Annual Declarations of Interests have been screened and approved before inviting the experts to the meeting, in accordance with the Decision of the Executive Director implementing the Policy on Independence regarding Declarations of Interests.

MIEKE UYTENDAELE** a current *ad hoc* consultancy activity for a non-food safety organisation in the specific area of irrigation water was identified. In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes and the Decision of the Executive Director implementing this Policy regarding Declarations of Interests, and taking into account the specific matters discussed at the meeting in question, the interest above was deemed to represent a conflict of Interest.

This results in the impossibility for the expert to be present when this specific topic (irrigation water) is discussed in the meeting, voted on or in anyway processed by that concerned scientific group.

⁵ The Annual Declarations of Interests have been screened and approved before inviting the experts to the meeting, in accordance with the Decision of the Executive Director implementing the Policy on Independence regarding Declarations of Interests.

5. Scientific topic(s) for discussion

5.1 Risk posed by pathogens in FoNAO - *Salmonella* and Norovirus in leafy greens eaten raw as salads (EFSA-Q-2012-00238)

Representatives from the industry gave presentations on the production in the EU of leafy greens eaten raw as salads which were followed by discussion with the experts. Following to the contributions provided since the previous meeting, the experts further discussed and improved the contents of the draft opinion. The future work ahead was discussed, and new tasks were allocated to the WG experts and EFSA's Secretariat.

5.2 Risk posed by pathogens in FoNAO - *Salmonella*, *Yersinia*, *Shigella* and Norovirus in bulb and stem vegetables and carrots (EFSA-Q-2013-00176)

Representatives from the industry gave presentations on the production in the EU of bulb and stem vegetables and carrots, which were followed by discussion with the experts.

5.3 Risk posed by pathogens in FoNAO - *Salmonella* and Norovirus in tomatoes (EFSA-Q-2013-00177)

This question was not addressed during this meeting.

5.4 Risk posed by pathogens in FoNAO - *Salmonella* in fruit and vegetables grown on soil, intended to be eaten raw (EFSA-Q-2013-00178)

This question was not addressed during this meeting.

5.5 Risk posed by pathogens in FoNAO - *Salmonella* and Norovirus in berries (EFSA-Q-2013-00179)

This question was not addressed during this meeting.

7. Next meetings

The WG Experts agreed to hold the next meetings on:

- 2 July 2013 (9-12 am) and

SCIENTIFIC PANEL ON BIOLOGICAL HAZARDS

Minutes of the 1st WG meeting for the BIOHAZ Panel mandate: “Risk posed by pathogens in food of non-animal origin”

EFSA-Q-2012-00238

Brussels, 18 January 2013

EFSA / BIOHAZ Unit

Adopted by the WG on 21 January 2013

Participants

WG Experts: Jim McLauchlin (Chair)
EFSA: Marta Hugas, Ernesto Liebana.
Commission: Sylvie Coulon, Kris de Smet, Sabine Osaer

1. Welcome and apologies

Commission welcomed EFSA staff. Apologies were received from the Chair due to railway disruptions in the UK. Nevertheless, he was able to participate via teleconference.

2. Adoption of agenda

The agenda was adopted without changes.

3. Declarations of interest

In accordance with EFSA's Policy on Declarations of Interests, EFSA screened the Annual Declaration of interest (ADoI) and the Specific Declaration of interest (SDoI) filled in by the experts invited for the present meeting. No conflicts of interests related to the issues discussed in this meeting have been identified during the screening process or at the beginning of this meeting.

4. Discussions

The mandate and terms of reference (ToRs) for the part 2 of this mandate were reviewed and clarified with representatives of DG Sanco. An updated version of these ToRs will be provided to EFSA.

5. Next meeting date

No new meetings are scheduled at present.
